

Bay Area Daylily Society Meeting
Minutes for 3-20-2010
Mother's Organics, Seffner, Florida

Attendees:

Jay Jarman, Vice President	Cari Jarman
Sue Simmons, Secretary	Terri Jones
Kay Smith, Show and Sale Chairman	Dawn Mason
Kyle Pierson, Communications and Website	Gayle Nipper
Barbara Adolphson	Marcia Pagnotta
Dick Adolphson	George Pagnotta
Anita Altman	Sandy Soderberg
Sally Doggett	Robert Smith, Guest
Alan Doggett	
Mark Headley	
Joyce Hull	

Jay Jarman called the meeting to order at 10:12 am.

There was not a Treasurer's report.

Gayle Nipper Green Fest Chairman reported that all plans were in place for Green Fest (3-27-28-2010) which is held at the University of Tampa. More members are needed to work our booth, especially on Sunday morning. She had received the pictures of sale cultivars from Terri Jones.

Kay Smith reported that Jeff Johnson had purchased the following Procurement Plants from Tim Bell:

Fashion Police –Trimmer	Velvet Ribbon-Stamile
Jane Trimmer-Trimmer	Glory in the Sunset-Carpenter
Orange City-Trimmer	Marion Tyrus -Eller
Halloween Trick-Salter	Kathryn June Woods
Stringbean-Stamile	Root Beer Truffle-Kirchhoff
Four Diamonds-Robert	Brer Rabbit's Baby -Robert
Top Spin-Stamile	White Mountain-Stamile
Tropical Nights-Grace-Smith	

Gift plants: Red Hat Lady and Can't Believe my eyes

Jeff says the plants appeared rust free and are large plants with good root systems. Generally Tim sent 2 or 3 fans and in some cases more. They are planted in the club bed, labeled, sprayed, fertilized and soon will be heavily leaf mulched. The plants came to \$596 including shipping.

Gayle Nipper completed the show schedule and it is posted on www.bads.us. Everyone, please make a copy for yourself.

During our April meeting we will learn grooming of show plants and how to fill out the entry tags.

This year's Show and Sale will include a People's Choice Exhibit of daylily photographs. They must be matted to 5x7 or 8x10 size. The committee needs photographs by the April meeting.

Our meeting adjourned to enjoy our fieldtrip to Mother's Organics. We were given a guided/riding tour of their facility. It is designed to receive organic waste materials from companies and municipal agencies that would otherwise go into land fields. They turn large quantities of organic waste into humus, which is the product created in the final stage of composting where there is a healthy and stable microbial environment. Afterwards some stopped by a nearby rose nursery and many members stopped at Cracker Barrel for lunch.
